ONEMBA

OneMBA was established in 2002 as a global executive MBA program that develops knowledge on the real world of business by means of interpersonal relationships and in-depth reflections, based on applied theoretical fundamentals that enable students to rethink their views of business phenomena. International residency immersions, multi-cultural challenges and a team of global professors make the OneMBA a unique experience in terms of credibility, recognition, and transformation in how one perceives the world.

OneMBA is conducted by a consortium of world renowned and accredited business schools from four countries in three continents. The program addresses current topics of the business environment and discusses best management practices in each world region, instilling in its students a worldview based on different perspectives and meanings.

Participants from several countries meet in three immersive global residencies in four different continents. They participate in lectures by local professors and executives, have technical visits at regional and multinational companies, attend meetings with business managers and government officials, and take part in social immersion activities.

In two global courses and a social impact challenge, students form teams with participants from other countries, adding diversity in terms of cultural history, academic background, professional practice, age, and industries. These global courses include a comprehensive project that requires teamwork skills (both remote and on-site) and the ability to evaluate business based on different conceptual views. The social impact challenge is conducted mostly asynchronously, with self-selected teams across the member schools meeting up with companies to tackle a social or environmental issue and, at the end of the project, the teams deliver a strategic solution to that specific challenge. Local courses complement students' development and aim to speed up students' professional success, while the Knowledge Track short courses, offered to all OneMBA students in all partner schools, convey current topics and megatrends. The Business Game Simulation wraps up all the acquired knowledge and allows for students to be able to make informed decisions in a risk-free environment.

The OneMBA program will start in **December of 2021** (Orientation and Online Opening) and end in **June of 2023**. The global calendar and the program curriculum are available in the [OneMBA Class 2023 Folder](#).
